Note: If teams are required to play on a round-robin basis at Stage 2, then results between teams at Stage I will be carried forward to Stage II (so that team do not play each other twice).

When teams play one another in a Pool, the final order of merit in that Pool is decided based on all results in that Pool, as follows:

- first by greater number of Ties won
- if two teams still equal, then by the result between the teams
- if three or more teams have won the same number of Ties, then by the greater number of matches won
- if two teams still equal, then by the result between the two teams
- if three or more teams still equal, then by greater positive difference between games won and lost
- if two teams still equal, then by the result between the two teams
- if three or more teams still equal, then by greater positive difference between points won and lost
- if two teams still equal, then by the result between the two teams
- finally, if more than two teams still equal, then by lottery.
